PP-R Stable State Composite Pipe**Stable State Composite PP-R Pipe****PP-R Stable State Composite Pipe**

Aluminum covered PP-R pipe combines the sanitary and well-sealing advantages of normal PP-R pipes and the hardness characteristic of metal pipes. Thus getting such superior physical characteristics of small linear expansion, oxygen permeation free, Anti-Ultra-violet rays, high temperature resistance.

Features:

1. Small linear expansion.
2. Oxygen resistance&sanitary performances.
3. Anti-Uv rays.
4. Stand static pressure.
5. Reliability, safety and easier connection.
6. Inner metal layer can be detected easily.

Applications: can be used under high temperature, hot water, heating ventilation(HVAC), outdoor installation, central air-conditioning system, solar energy, high temperature radiator and reconstruction etc..
